

Stewardship Teams

Stewardship is the recognition of our collective responsibility to retain the quality of the Commonland forests, trails and waterfronts; to manage these natural resources in a way that conserves their environmental, recreational and economic value.

Stewardship is also a journey - the commitment that comes with being good stewards takes time and effort. There is a role for everyone in stewardship:

- the Board of Directors are elected to provide leadership in the development of policies that support stewardship of the Commonland;
- volunteer teams help with the implementation of the policies and the ongoing maintenance of the Commonland; and
- all Members provide input and feedback and ensure their use of the Commonland aligns with the Association’s stewardship goals and policies.

Do you have a specific area of interest and time or skills to help?
Email or phone a Director below to join one of the Stewardship Teams.

You may also contact the **Vice President** if you want to help on an occasional basis or volunteer in other ways.
